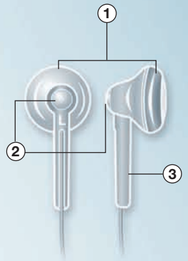
IMPORTANT
Please read the End User License Agreement with this product before using the accompanying software program(s). You accept the terms of the End User License Agreement by using any part of the software. Using any non-authorized charging accessories or ink cartridges may damage your smartpen and voids your smartpen's warranty.

Software Download Available
Livescribe® Desktop software, updates and new versions of the software are available at www.livescribe.com/support.

Agency Compliance Information
Product, regulatory, and compliance information can be found in the Pulse User Manual located at www.livescribe.com/support.

Tips and Tricks

Record with the Pulse in two different ways: The built-in microphones provide mono recordings and are optimized for smaller recording environments, such as a conference room. In larger spaces, use the Pulse 3D Recording Headset, which contains a microphone in each earbud to record 3D sound, recreating the spatial audio environment and placing you in the moment.



3D Recording Headset

1. Left and right speaker
2. Left and right microphone
3. Neckstrap connection stem

Note: For situations where etiquette requires that you do not place the headset in your ears, use the included neckstrap and place the earbuds around your neck. To attach the neckstrap:

a. Lift the wire from the earbud stem.
b. Slide the end of the neckstrap over the stem.
c. Place the neckstrap around your neck (earbuds should be resting around your neck several inches apart).

Carry All Soft Case

1. Ink cartridge removal ring
2. Headset management band
3. Ink cartridge storage
4. Nav Plus (navigation control)

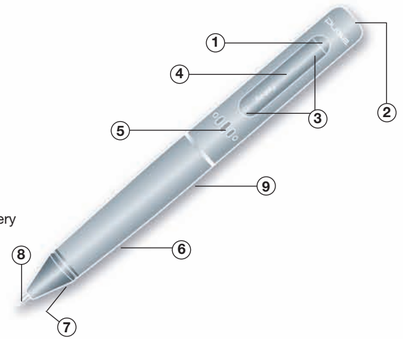
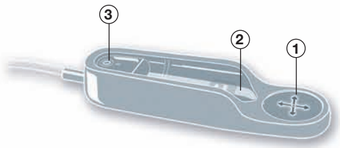
Introducing the Pulse™ Smartpen

This setup guide will get you up and scribing. If you need additional help, visit us at www.livescribe.com/support.

Pulse™ Smartpen

1. Power button
2. Headset jack
3. Built-in microphones
4. Display
5. Speaker
6. USB connector
7. Infrared camera
8. Removable ink cartridge
9. Rechargeable lithium battery (non-removable)





USB Mobile Charging Cradle

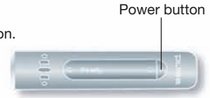
1. Nav Plus (navigation control)
2. USB smartpen connector
3. Ink cartridge removal ring

Note: To replace ink:

a. Insert the Pulse ink tip into the ink cartridge removal ring.
b. Tilt Pulse back and pull up to remove ink cartridge.
c. Insert new ink cartridge into Pulse.

Configuring Your Pulse™ 1

1. Turn the Pulse on by pressing the Power button.



2. Tap the buttons in this guide with the tip of your smartpen to hear additional information.

3. Orienting your display:

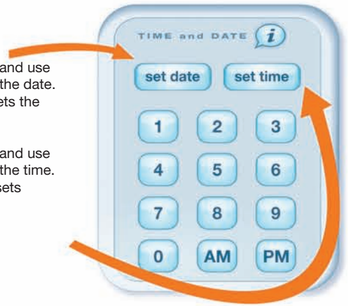
Tap the "left" or "right" button to orient your display for left- or right-handed use.

Tip: These printed buttons on the right really work!

4. Setting the time and date:

a. Tap the "set date" button and use this printed keypad to enter the date. Example: Tapping 010108 sets the date to January 1, 2008.

b. Tap the "set time" button and use this printed keypad to enter the time. Example: Tapping 1201PM sets the time to 12:01PM.

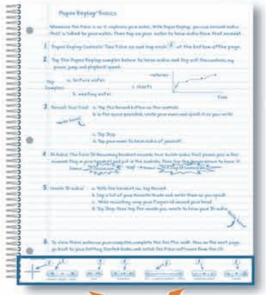


Note: It is important to set the time and date on your Pulse smartpen because Paper Replay sessions are time-stamped with the date and time they are created.

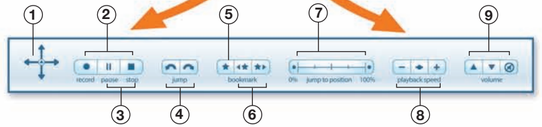
Experiencing Paper Replay™ 2

5. Open your included notebook to the first page and follow the instructions. When you are done, return to this guide for the next steps.

Paper Replay Basics



Paper Replay Controls



1. Nav Plus (navigation control)
2. Recording controls (record, pause, and stop)
3. Playback controls (pause and stop)
4. Jump back/forward
5. Create new bookmark
6. Jump to previous/next bookmark
7. Position bar (jump to any point in the session)
8. Playback speed (decrease, increase or reset playback speed)
9. Volume controls (increase, decrease or mute volume)

Installing Livescribe Desktop 3

IMPORTANT: Your Pulse smartpen and software can be assigned to only one computer at a time. Please make sure to download and install Livescribe Desktop on the computer where you want your notes to reside.

6. Plug the USB mobile charging cradle into your computer's USB port.

7. Place the Pulse in the cradle to charge. If your computer displays a Found New Hardware message, dismiss it and continue to Step 8.

Note: Full charge can take up to 2.5 hours. You can tap the printed "Battery" button to determine your current smartpen charge.

8. Download and install Livescribe Desktop from **www.livescribe.com/install**. Follow the onscreen instructions to complete the Livescribe Desktop software installation and register your Pulse.

IMPORTANT: Registration extends your Pulse standard 90 day warranty and support to 1 year from date of purchase. Once you register, you will be able to upload notes, download applications and create a personal account at Livescribe Online.

Note: To learn how to use Livescribe Desktop, refer to the documentation located under Help in the application toolbar of Livescribe Desktop.
